Education

Posts and Telecommunications Institute of Technology, Bachelor of Software Engineering in Software Engineering – Hanoi, Vietnam 2018 – 2022

- GPA: 3.0+

IELTS Academic, English Certification in English Proficiency

- Overall Band Score: 7.0

TOEIC, English Certification in English Proficiency

- Score: 855/990

Experience

Frontend Engineer, THANH NAM Education and Technology JSC, a TANDAN.JSC company – Hanoi, Vietnam Jan 2024 – present

Lead frontend development for cross-platform EdTech products including Codemath, Tiengtrunggioi, and Thidanhgia, serving 30,000+ users across web and mobile applications.

- Built reusable React and React Native components across 3 EdTech products, reducing feature delivery time by ~30%.
- Designed frontend architecture with React, TypeScript, React Query, and custom hooks to improve maintainability.
- Defined API contracts with backend engineers to standardize data flow across web and mobile apps.

Frontend Developer, TANDAN.JSC – Hanoi, Vietnam Sept 2022 – Jan 2024

Developed and maintained administrative systems, focusing on complex workflows, responsive interfaces, API integration, and release stability.

- Developed ReactJS modules for administrative systems with approval, reporting, and document workflows.
- Integrated REST APIs with backend services to support role-based access and workflow state changes.

Software Developer Intern, TANDAN.JSC – Hanoi, Vietnam Jan 2021 – Jan 2022

Contributed to internal CRM systems and client portals using ASP.NET MVC, SQL Server, and ReactJS.

- Developed responsive dashboards and client-facing pages using ReactJS and ASP.NET MVC.
- Integrated frontend pages with backend APIs to support internal business workflows.

Projects

Codemath.vn

Flagship EdTech platform serving 30,000+ users.

- Supported high-traffic exam seasons such as TIMO and HKIMO through optimized rendering and API usage.
- Improved user retention from 45% to 87% by refining onboarding and learning flows.

Tiengtrunggioi.vn

Cross-platform language learning system focused on scalable frontend architecture, faster builds, and mobile learning experiences.

- Migrated legacy frontend to React 18, TypeScript, and Vite, reducing build time by 50%.
- Improved LCP from 3.2s to 2.4s through bundle, rendering, and asset optimization.
- Released React Native apps for both iOS and Android.

Thidanhgia.vn

Public-facing assessment platform supporting student acquisition, onboarding, real-time testing, and instant evaluation workflows.

- Built SEO-optimized landing pages to support student acquisition and assessment registration.
- Improved onboarding and registration flows to reduce friction before assessment submission.

Skills

Frontend & Mobile: JavaScript (ES6+), TypeScript, ReactJS, React Native, Next.js, Redux Toolkit, React Query, Vite

UI & Styling: Tailwind CSS, Shadcn UI, Ant Design, Material UI, Bootstrap

Architecture & Performance: Component Architecture, Custom Hooks, State Management, Caching, Rendering Optimization, API Integration

Testing & Code Quality: Jest, React Testing Library, ESLint, Prettier, Debugging, Code Review

Backend Familiarity: C#, SQL, RESTful APIs, ASP.NET MVC, .NET Framework

Developer Tools: VS Code, Git, GitHub, GitLab, Xcode, Android Studio, Chrome DevTools, Postman, AI-assisted Development

Design Tools: Figma, Adobe Photoshop, Canva
